

# REVOLUTIONARY COLD + COMPRESSION

## DECREASE PAIN + SPEED RECOVERY WITH The NICE1

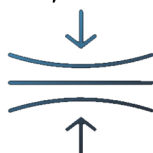

The best cold + compression therapy machine on the market is now available for use at home following your surgery. NICE delivers precise cold therapy without ice. Its preset programming allows for timed, intermittent cold therapy, maximizing pain relief and swelling reduction, even while you sleep.

### COOLING

State-of-the-art technology delivers therapeutic cooling without ice. The most convenient way to apply cold therapy.

### COMPRESSION

Programmable intermittent and constant compression greatly improves the effectiveness of cold therapy and promotes healing.

### RECOVERY

By combining the therapeutic benefits of cooling and compression in a single-easy-to-use device, recovery times are greatly improved.

*"I was recommended to use NICE following surgery and I can truly say have no regrets. Surgery can be a stressful time for anyone, and the NICE machine helped my recovery process immeasurably. The best part was that I could use it throughout the night without having to get up and change my ice pack. I highly recommend this product to anyone who is going to have surgery. My recovery wouldn't have been the same without it." -Alexis W*

# SOMETHING COOL, WHATEVER YOUR BUDGET

## BEST - ICELESS COLD + COMPRESSION

NICE1 is the smallest and lightest cold + compression device on the market and delivers precise cold therapy without ice. No more getting up to refill the machine, or making countless trips to the store for ice. Its preset programs allow for timed, intermittent use, even while you sleep, to maximize pain relief and reduce swelling 24 hours a day.

\$375/month Self Pay\* Rental.

Scan the QR code to read what former patients have to say about using NICE during their recovery!

## BETTER - POLAR CARE WAVE

The newest in the line of ice-bucket cold therapy devices, this motorized system incorporates cold therapy and active compression. The Polar Care Wave requires ice + water and remains cold for 6-8 hours. It offers two cold and two compression settings for individual comfort.

\$400 Self Pay\* Purchase.

## GOOD - POLAR CARE CUBE

The compact design of the Polar Care Cube makes it great for home use. Each ice + water fill of the bucket provides 6-8 hours of cold therapy.

\$225 Self Pay\* Purchase.

\*While not covered by insurance, all of these devices *are* eligible for FSA/HSA spending plans. Pricing includes the necessary wrap as well as delivery and pickup (if applicable).
