

LARGE TO MASSIVE SIZE ROTATOR CUFF REPAIR PT PROTOCOL

	BRACE INSTRUCTIONS AND RESTRICTIONS	RANGE OF MOTION GOALS	PT EXERCISES/NOTES
PHASE 1 First 6 Weeks (0-6) 1-2 Sessions/week Begin after 2 weeks	 Shoulder immobilizer x 6 weeks full time except hygiene and PT exercises No AROM x 6 weeks 	- Begin PROM as tolerated in supine position after 4 weeks (Goal of 130 deg FF, 90 deg Abduction, 30 deg ER by 6 weeks)	 Pendulum ROM Seated table slide for flexion or supine assisted shoulder flexion to begin at 4 weeks Elbow and wrist AROM
PHASE 2 Second 6 Weeks (6-12) 1-2 Sessions/week	- Out of brace - Avoid resisted rotator cuff exercises of the shoulder until 10 weeks post op	 Continue with PROM to reach full ROM and appropriate joint mobilizations Advance to AAROM/AROM at 6 weeks 	 Pulleys to begin at 6 weeks Wands /wall climbs Initiate scapular stabilizing exercises, core strengthening exercises including trunk rotation Begin resistive exercises for scapular stabilizers, biceps, and triceps Begin rotator cuff strengthening after 10 weeks
PHASE 3 Third 6 Weeks (12-18) Sessions once/week or once every other week		- Full AROM in all planes	 Initiate PREs (light weight, high repetition) Neuromuscular and proprioceptive training Aerobic conditioning and preparation for return to work/sport and ADLs Cycling and running as tolerated

PHASE 4	- Sport and work	- Aggressive scapular
18 Weeks +	specific exercises	stabilization and
Sessions as needed		eccentric strengthening
Transition to home		- Begin plyometric
exercise program		exercises
		 Improve neuromuscular control and shoulder proprioception Advance to home exercise program 3 times/week and daily shoulder stretching Return to sport after 8 months once clear by MD

This protocol is intended for the purposes of guiding post-surgical or post-injury rehabilitation exercises and goals. These guidelines may be interpreted by a certified physical or occupation therapist and tailored to meet patient specific goals and expectations. Other specific modifications may be made by Dr. Butterfield depending on adjuvant surgical procedures, surgical findings, or rehabilitation progress.

Please fax initial physical therapy assessment and progress notes to Dr. Butterfield at 763-717-4139. You may direct questions regarding this protocol or patient progress to our office at 763-786-9543.
